Joseph Leslie[™]
& CO. LLP
— A Legacy of Safety —

Joseph Leslie & Co. LLP is proud to introduce its range of Dust Mask respirators. Our state of the art manufacturing facility sets a new benchmark in quality control, systems and processes.

We meet and beat current Indian and International Standards and Certification.

Our product has been designed and developed keeping safety and comfort in mind for the end user.

Brief information on standards –

- **EN149:2009 FFP1 Particulate Respirators**
are approved for use against solid and liquid aerosols according to EN149:2009. They are suitable for protection against non-toxic harmful materials in concentrations up to 4 x OEL.
- **EN149:2009 FFP2 Particulate Respirators**
are approved for use against solid and liquid aerosols according to EN149:2009. They are suitable for protection against low-to-average toxicity harmful materials in concentrations up to 10 x OEL.
- **EN149:2009 FFP3 Particulate Respirators**
are approved for use against solid and liquid aerosols according to EN149:2009. They are suitable for protection against high toxicity harmful materials in concentrations up to 50 x OEL.
- **NIOSH N95 Approved Particulate Respirators**
N95 disposable particulate respirators are approved with filtration 95% effective against particulate aerosols free of oils. Conforms to NIOSH 42 CFR Part 84 standard as N95 class.

Mission

'A GLOBAL TRAIL OF VIGOUR AND WISDOM'

To combine the dynamism of the company with its wealth of experience and wisdom in order to achieve global recognition in industrial safety through quality, innovation and sensitivity to future trends.

OEL – Occupational Exposure Limit

JL - 188 (FFP1-S)

Leslico disposable particulate respirator provides protection against low level of fine dust found in many industrial applications.

- The mask is Flat Fold Design.
- The material used offers high filtering efficiency.
- The mask is weld fringe seal to avoid open layer around the edges.
- The mask is provided with stitched elastic head strap.
- The contour design of the mask ensures the compatibility of glasses/goggles and reduces fogging.
- The aluminium adjustable nose clip ensures custom shape and increase the worker comfort and acceptance.
- The color of mask is White.

Approval: The mask is CLI tested to IS-9473-2002 for FFP1-S

JL - 120

Leslico Disposable Particulate Respirator offering protection against dust particulate tested and certified to EN standard for FFP1 level.

- Leslico make, Disposable Dust Mask, for protection against dust particles.
- The mask is Flat fold designed.
- The mask is provided with aluminium adjustable nose clip ensuring custom shape and increased worker comfort and acceptance.
- The mask is weld fringe seal to avoid open layer around the edges.
- The material used offers high filtering efficiency.
- The contour design of the mask ensures the compatibility of glasses/goggles and reduces fogging.
- Color of the mask is white & also available in Yellow/Grey.
- The mask is provided with double adjustable elastic bands.

Approval: The mask is CE Certified to EN 149 FFP1 level

JL - 120 V

Leslico Disposable Particulate Respirator offering protection against dust particulate tested and certified to EN standard for FFP1 level.

- Leslico make, Disposable Dust Mask, for protection against dust particles.
- The mask is Flat fold designed.
- The mask is provided with aluminium adjustable nose clip ensuring custom shape and increased worker comfort and acceptance.
- The mask is weld fringe seal to avoid open layer around the edges.
- The material used offers high filtering efficiency.
- The mask is provided with exhalation valve to reduce hot air build up and reduce breathing resistance.
- The contour design of the mask ensures the compatibility of glasses/goggles and reduces fogging.
- Color of the mask is white & also available in Yellow/Grey.
- The mask is provided with double adjustable elastic bands.

Approval: The mask is CE Certified to EN 149 FFP1 level.

JL - 126 C

Leslico Disposable Particulate Respirator offering protection against dust particulate tested and certified to EN standard for FFP1 level.

- Leslico make, Disposable Dust Mask, for protection against dust particles.
- The mask is a cup design collapse resistant double shell construction made to withstand hot and humid conditions.
- The material used offers high filtering efficiency.
- The mask is weld fringe seal to avoid open layer around the edges.
- The contour design of the mask ensures the compatibility of glasses/goggles and reduces fogging.
- The mask is provided with aluminium adjustable nose clip ensuring custom shape and increased worker comfort and acceptance.
- The mask is provided with soft foam at the nose to improve comfort.
- Color of the mask is white & also available in Yellow/Grey.
- The mask is provided with elastic headband.

Approval: The mask is CE Certified to EN 149 FFP1 level.

JL - 126 CV

Leslico Disposable Particulate Respirator offering protection against dust particulate tested and certified to EN standard for FFP1 level.

- Leslico make, Disposable Dust Mask, for protection against dust particles.
- The mask is a cup design collapse resistant double shell construction made to withstand hot and humid conditions.
- The material used offers high filtering efficiency.
- The mask is provided with exhalation valve to reduce hot air build up and reduce breathing resistance.
- The mask is weld fringe seal to avoid open layer around the edges.
- The contour design of the mask ensures the compatibility of glasses/goggles and reduces fogging.
- The mask is provided with aluminium adjustable nose clip ensuring custom shape and increased worker comfort and acceptance.
- The mask is provided with soft foam at the nose to improve comfort.
- Color of the mask is white & also available in Yellow/Grey.
- The mask is provided with elastic headband.

Approval: The mask is CE Certified to EN 149 FFP1 level.

JL - 240

Leslico Disposable Particulate Respirator offering protection against dust particulate tested and certified to EN standard for FFP2 level.

- Leslico make, Disposable Dust Mask, for protection against dust particles and fumes.
- The mask is Flat fold designed.
- The mask is provided with aluminium adjustable nose clip ensuring custom shape and increased worker comfort and acceptance.
- The mask is weld fringe seal to avoid open layer around the edges.
- The material used offers high filtering efficiency.
- The contour design of the mask ensures the compatibility of glasses/goggles and reduces fogging.
- Color of the mask is white & also available in Yellow/Grey.
- The mask is provided with double adjustable elastic bands.

Approval: The mask is CE Certified to EN 149 FFP2 level.

JL - 240 V

Leslico Disposable Particulate Respirator offering protection against dust particulate tested and certified to EN standard for FFP2 level.

- Leslico make, Disposable Dust Mask, for protection against dust particles and fumes.
- The mask is Flat fold designed.
- The mask is provided with aluminium adjustable nose clip ensuring custom shape and increased worker comfort and acceptance.
- The mask is weld fringe seal to avoid open layer around the edges.
- The material used offers high filtering efficiency.
- The mask is provided with exhalation valve to reduce hot air build up and reduce breathing resistance.
- The contour design of the mask ensures the compatibility of glasses/goggles and reduces fogging.
- Color of the mask is white & also available in Yellow/Grey.
- The mask is provided with double adjustable elastic bands.

Approval: The mask is CE Certified to EN 149 FFP2 level.

JL - 246 C

Leslico Disposable Particulate Respirator offering protection against dust particulate tested and certified to EN standard for FFP2 level.

- Leslico make, Disposable Dust Mask, for protection against dust particles and fumes.
- The mask is a cup design collapse resistant double shell construction made to withstand hot and humid conditions.
- The material used offers high filtering efficiency.
- The mask is weld fringe seal to avoid open layer around the edges.
- The contour design of the mask ensures the compatibility of glasses/goggles and reduces fogging.
- The mask is provided with aluminium adjustable nose clip ensuring custom shape and increased worker comfort and acceptance.
- The mask is provided with soft foam at the nose to improve comfort.
- Color of the mask is white & also available in Yellow/Grey.
- The mask is provided with elastic headband.

Approval: The mask is CE Certified to EN 149 FFP2 level.
